Joel,

Sorry, I missed your call on Friday as I got an early start to the weekend. Please find our latest response to CARB in regards to the MY14 GLK250 testing. I will make sure we keep you updated on future Q&A with CARB to ensure EPA is in the loop as well. Also, would it be helpful if we pull together all the previous CARB MY14 GLK250 Q&A communication or will moving forward be okay? Let me know if you would like the previous Q&A and I'll work on getting that for you.

With best regards
